VII. Discussion - Mr. Friddle

We will have a student representative at the next school board meeting. The first day of school went well in all of the buildings. The high school was able to get all the computers out to students on the first day. Heritage parents were happy with the new drop off procedure and the line was running smoothly. The Alternative Education program opened today with eighteen students in attendance. Still are still looking for paraprofessional support for this program.

We are looking to hire someone to assist new staff in their first few years of teaching. A teacher at the junior high is currently assisting the new teachers with their transition into the district.

We are looking for ways to show staff our appreciation. Providing more supplies, use of questionnaires to find out what they need. Provide social activities to develop camaraderie. Create peer recognition programs and incentives - by years of service. Continue and expand exit interviews.
